From Our HOPE Coordinator

Dear HOPE Supporters,

Every day I continue to be inspired by the courage and dedication of our HOPE students. Many are the first in their families to attend college, working long hours and caring for loved ones while excelling in challenging coursework and clinical trainings. Their determination to become health professionals in our community is nothing short of remarkable.

Because of your generosity and support, our students know they are not alone. Your support provides financial assistance, tutoring, necessary resources, and guidance that help them persist through barriers and reach their goals. Together, we are doing more than educating future healthcare providers, we are opening doors, lifting families, and strengthening our community.

From the bottom of my heart, thank you for believing in them and in the power of education to change lives.

SRJC HOPE Mission Statement

The SRJC HOPE (Health Occupation Preparation Education) Program is dedicated to advancing the success of underrepresented and first-generation students pursuing health care careers. We foster a sense of belonging by expanding diversity, equity, and inclusion in healthcare education through mentorship, workforce development, academic support and social emotional well-being. We empower students to become leaders who positively impact their communities.

WHY OUR WORK MATTERS

Over the years, the SRJC HOPE Program has supported hundreds of health sciences students at Santa Rosa Junior College, many of whom are **first-generation** and from **underrepresented backgrounds**. Our work has shown us what it takes to help students not only **access higher education**, but also persist, graduate, and move **beyond barriers** that too often keep families in cycles of hardship.

For too many students from **low-income** and **immigrant communities**, college can feel out of reach. **Systemic barriers, financial pressures, and lack of representation** create overwhelming obstacles to applying, enrolling, and completing their education. This results in an “opportunity gap” that leaves capable, hardworking students without the same chance to achieve their goals.

That’s why the support the HOPE Program provides is so critical. By offering holistic advising, academic resources, scholarships, and a strong sense of belonging, we help students see themselves as college students, thrive in their studies, and transform their futures.

WHY OUR WORK MATTERS

CONTINUED...

The HOPE Program addresses the education opportunity gap within health sciences by opening doors for a wide range of health sciences students with an emphasis on **first-generation, low-income, and underrepresented students**. We support them throughout every stage of their college journey at SRJC

Our **student-centered model** shifts the focus from simply getting into college into thriving in college and beyond. We strongly emphasize **belonging, community, and wrap-around support** that helps students succeed academically while also **building confidence, resilience, and leadership skills**.

By doing so, HOPE is helping students not only complete college, but also create career pathways that uplift their families and strengthen our communities.

HOPE'S SUPPORT MODEL

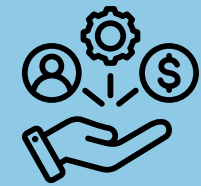

We remove barriers for entry so all students feel welcome, regardless of GPA, test scores, or background.

We inspire belief in our students' unlimited potential.

We provide individualized mentorship, and culturally responsive support.

We meet students where they are, offering flexible and comprehensive resources.

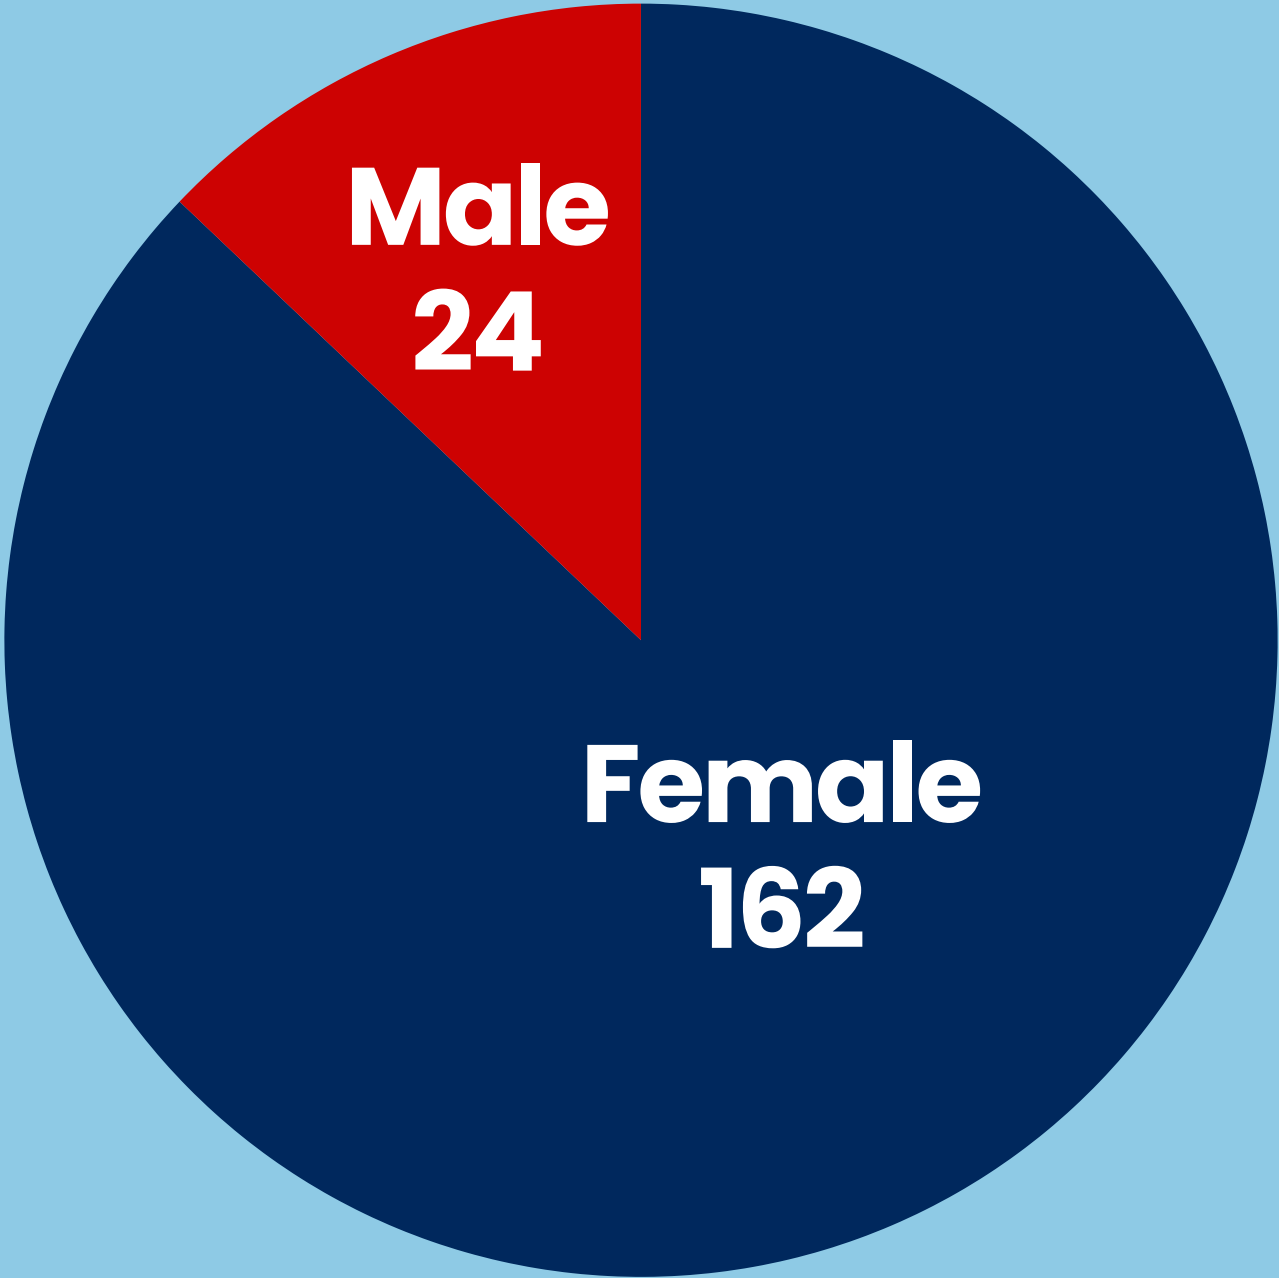

We work to demystify financial aid and scholarship processes to reduce debt.

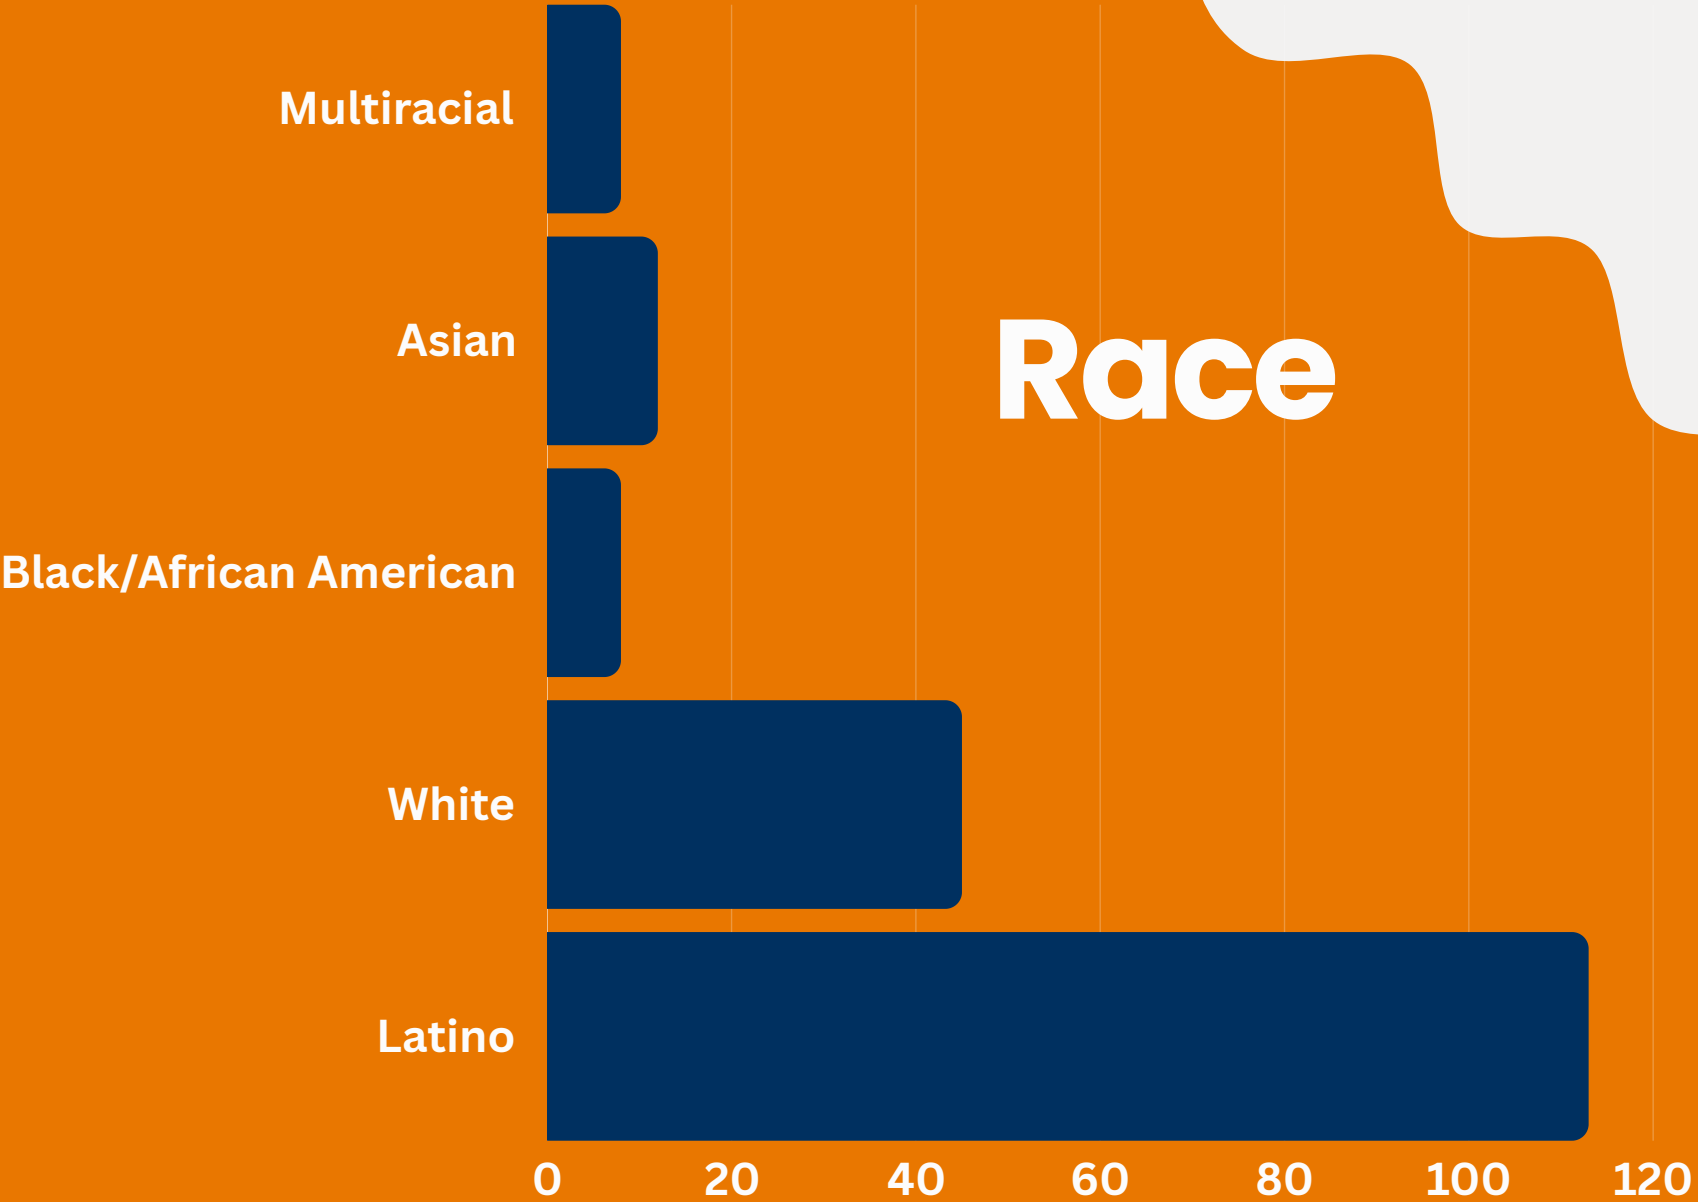

We walk alongside students throughout their educational journey into specialty programs, transfer, graduation, and meaningful careers in health care.

HOPE Student Demographics

Gender

- **Latino students** make up the largest group with 113 students **(61%)**, representing nearly two-thirds of the HOPE population.
- **White students** are the 2nd-largest group, with 44 students **(24%)**.
- **Asian students** account for 12 students **(6%)**.
- **Both Multiracial and Black/African American** students have 8 students each **(4%)**

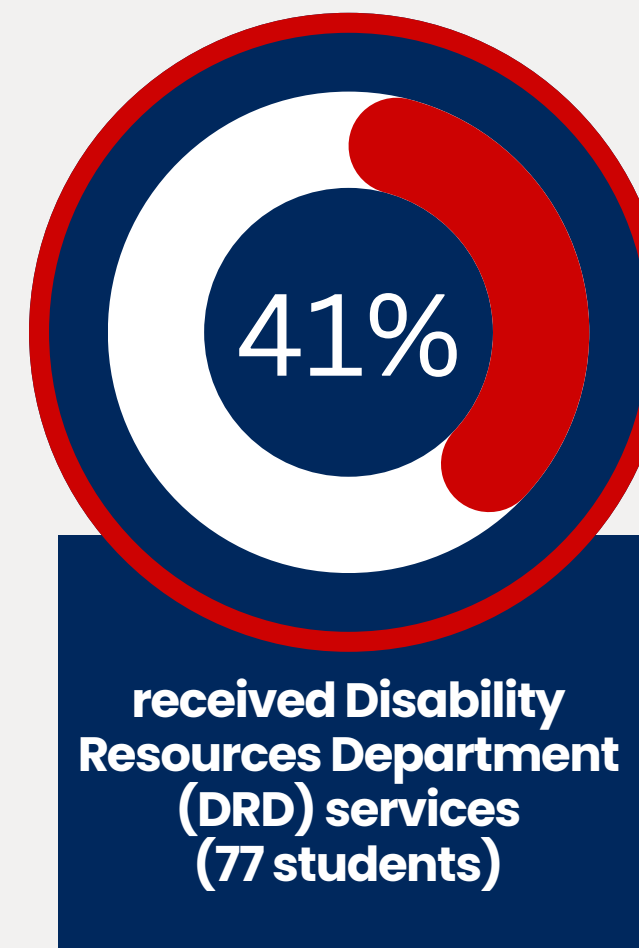

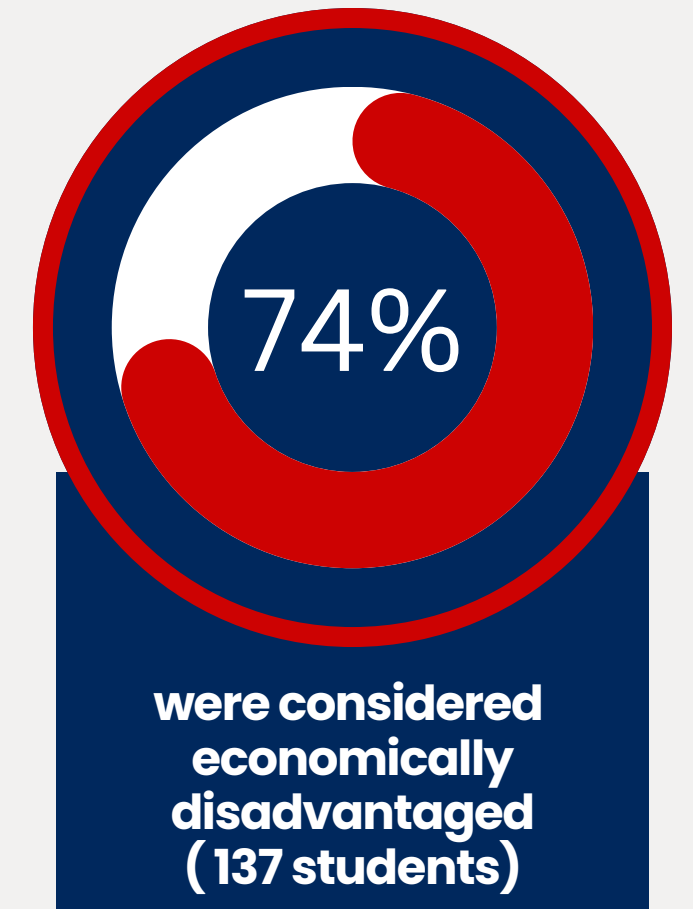

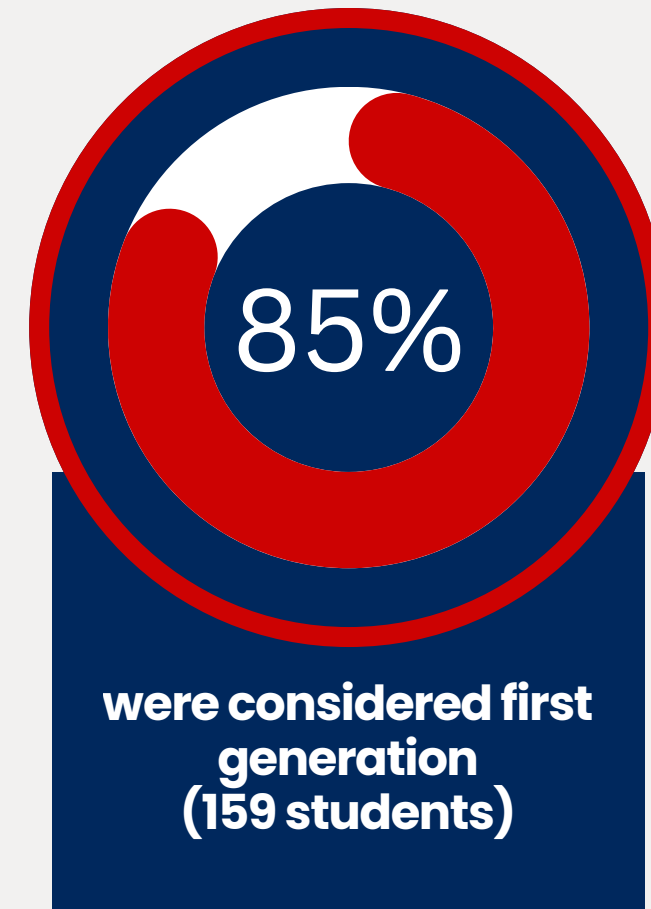

Total Students Served: 186

HOPE Student Demographics

CONTINUED...

The HOPE Program is proud to support students who demonstrate resilience, determination, and ambition despite systemic barriers. The data from this past **24/25 school year** paints a clear picture of the community we serve.

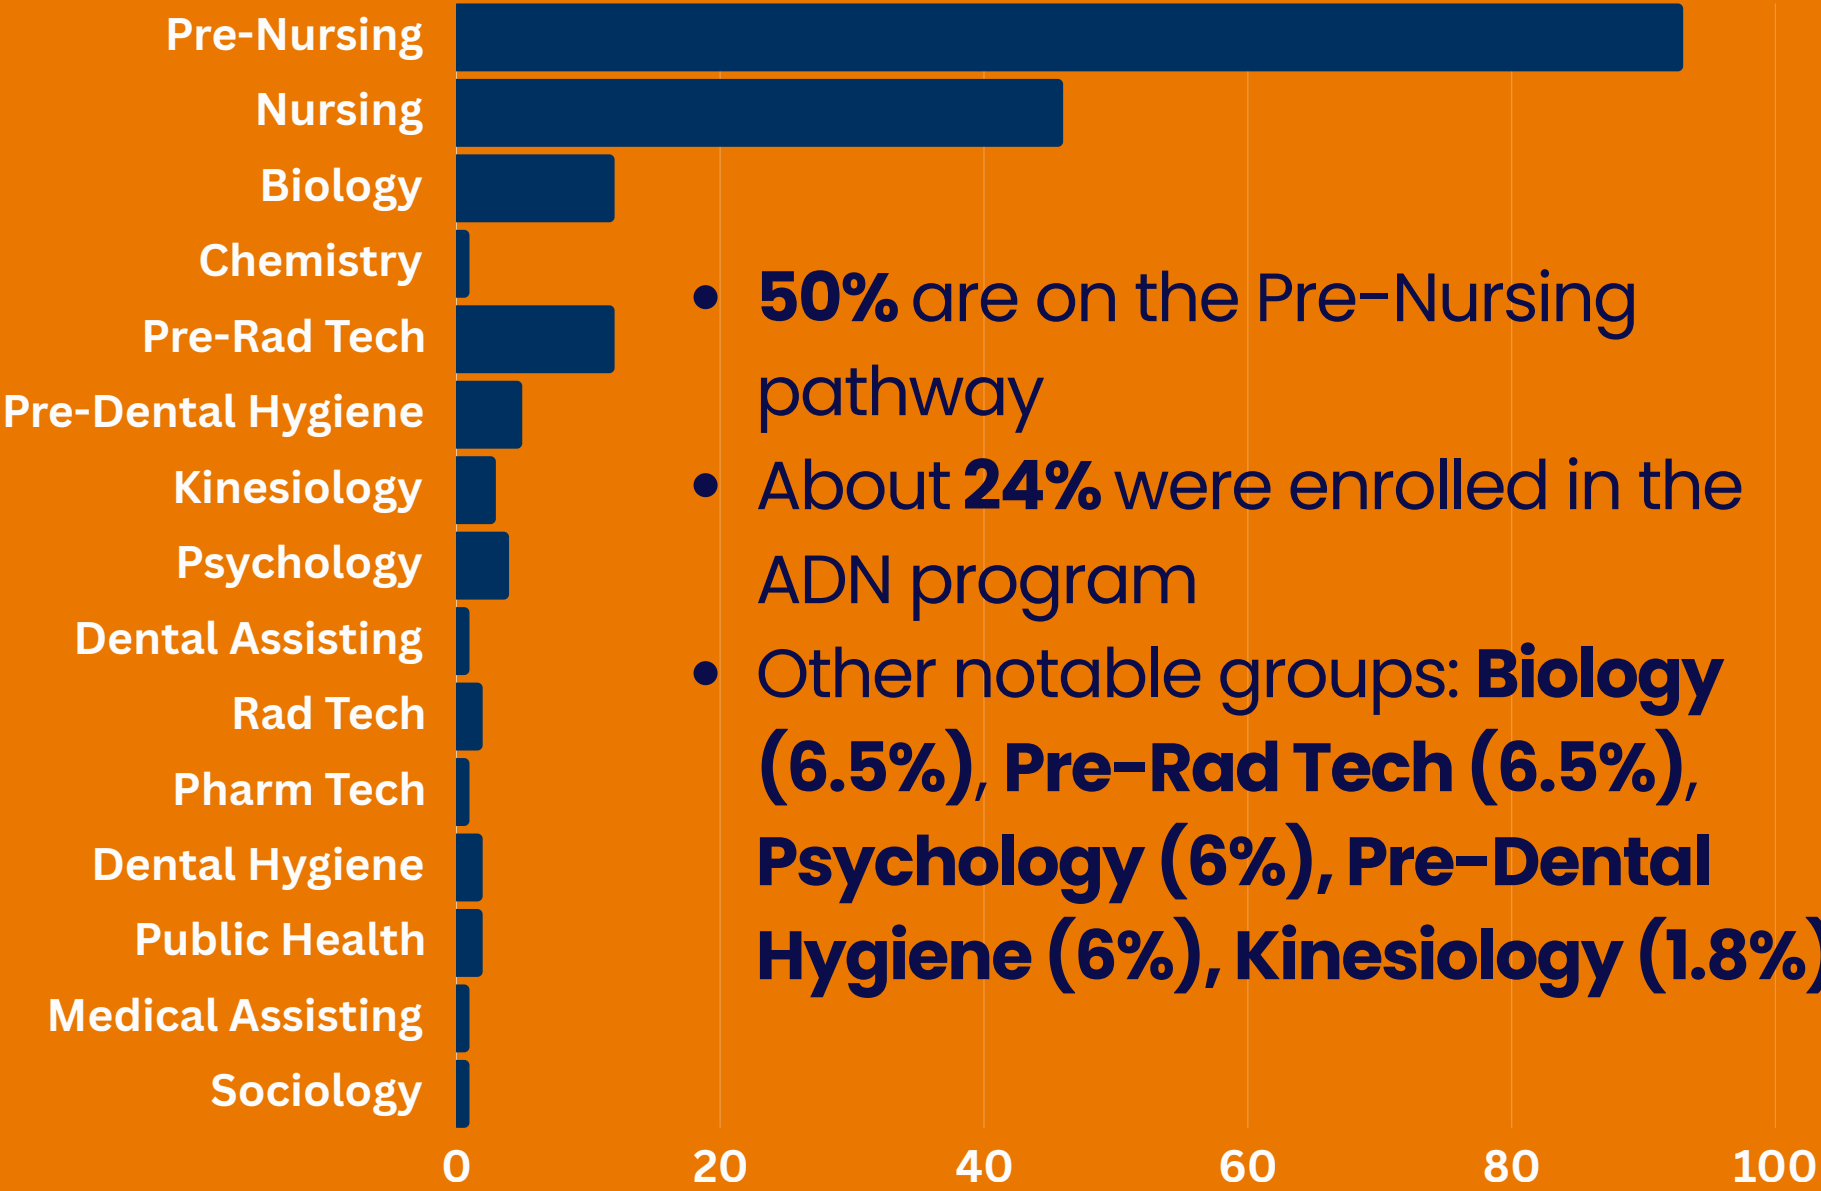

- Our **first-generation** HOPE students are the first in their families to attend college. These students are breaking cycles, creating new paths, and serving as role models for their siblings and communities.
- For our **economically disadvantaged** students, education is also a **pathway to economic stability and upward mobility**. By reducing financial burdens and **providing targeted resources**, we help ensure that financial hardship do not derail their aspirations.
- Our program is a safe, inclusive space where students with **diverse learning and physical needs** receive the support they need to succeed.

Student Major Summary

This past **24-25 School Year** reflects **185 dedicated HOPE students** pursuing careers in health sciences. The vast majority, **nearly three out of four students (74%)**, are preparing for OR are already enrolled in the **SRJC Nursing program**. This shows the passion our students have for entering the nursing field at a time when compassionate, skilled nurses are the most needed.

HOPE students are also exploring other critical areas of healthcare. **Radiologic Technology (6.5%)** and **Biology/Pre-Med (6%)** continue to be strong interests, while smaller but equally important groups are preparing for careers in **Dental Hygiene, Dental Assisting, Pharmacy Tech, Public Health, and Medical Assisting**. We also see students in **Kinesiology, Psychology**, and **related Social Sciences**, reflecting the diverse ways they want to contribute to health and well-being in our community.

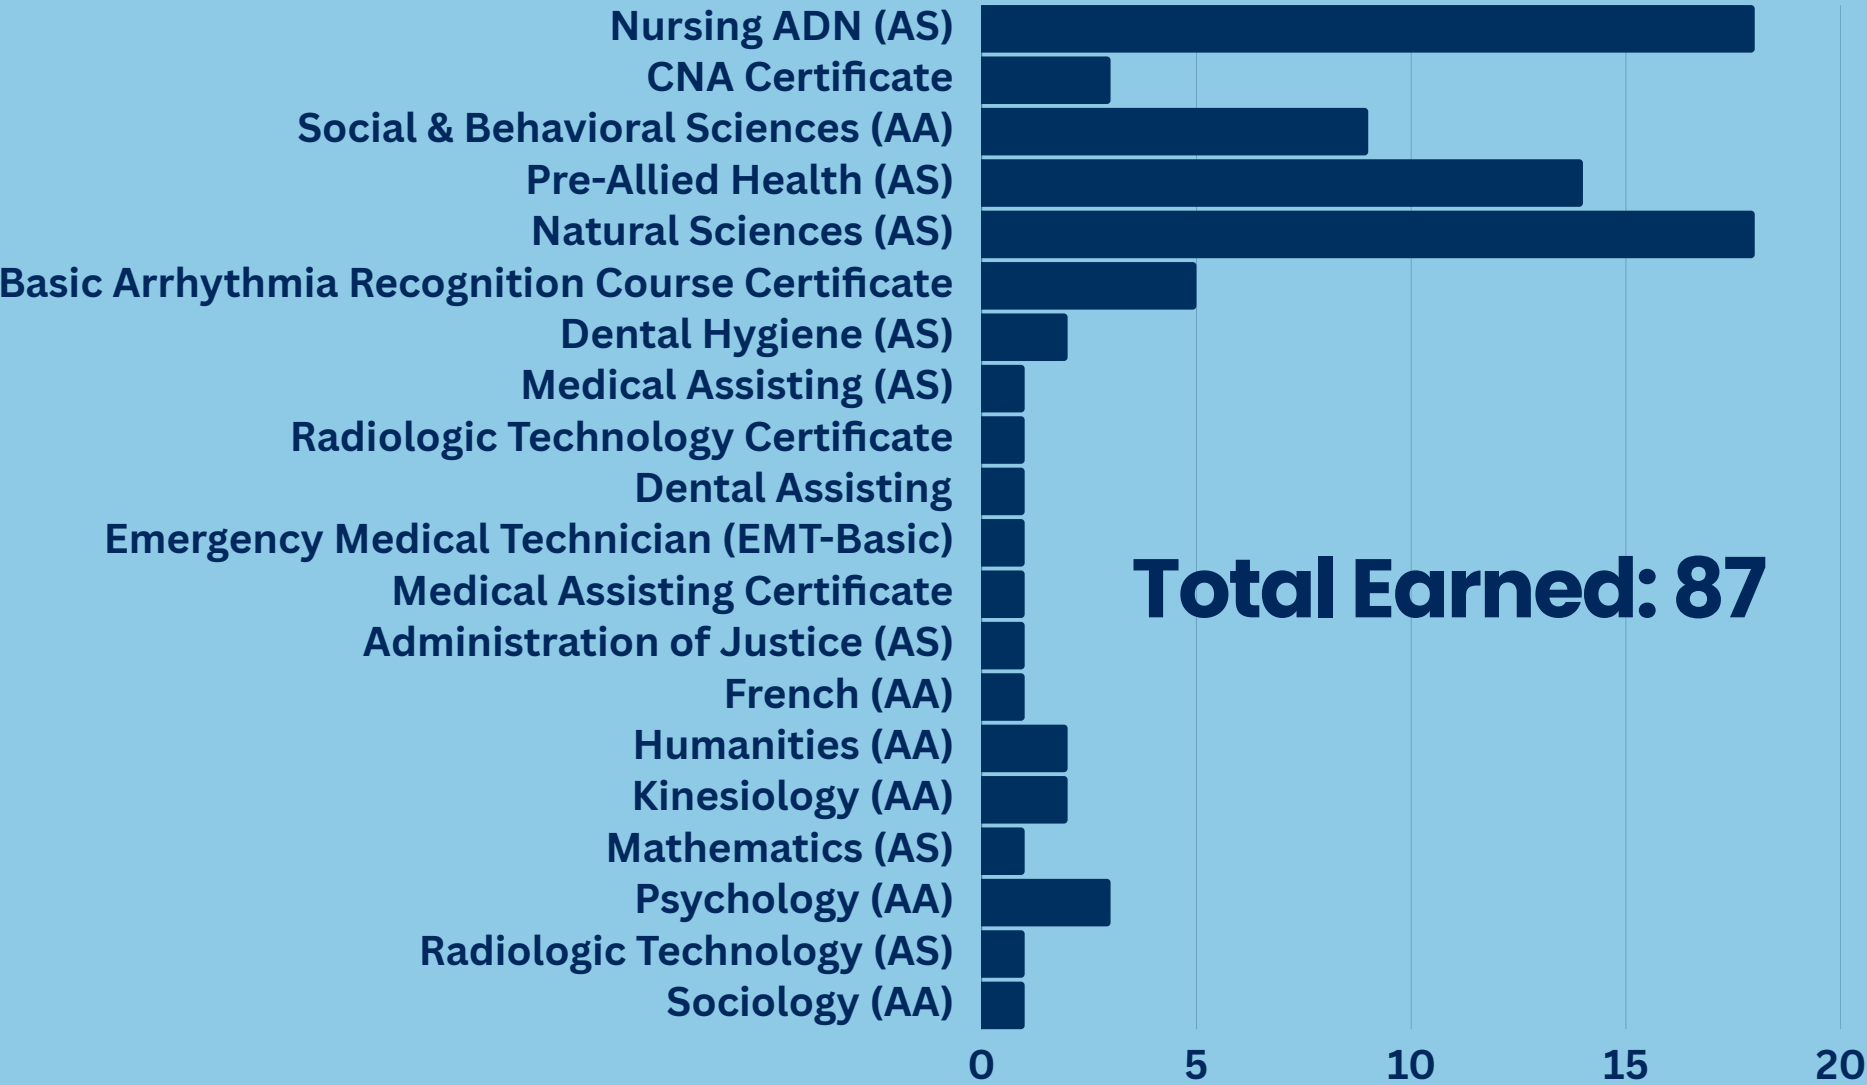

These numbers show that HOPE students are not just choosing majors, they are choosing **service and care**. Each student represents a future **healthcare professional** ready to care for others, uplift their families, and strengthen our **healthcare workforce**.

Your support helps ensure that these aspirations are not only possible but achievable.

HOPE Student Demographics

CONTINUED...

Degrees & Certificates Earned in 24/25

Dean's Honors: 10
Dean's Highest Honors: 28
Honors Society – Phi Theta Kappa: 4
Lambda Nu–Radiologic & Imaging Sciences National Honor Society: 1

In the 2024–2025 academic year, HOPE students earned a total of **87 degrees and certificates**, with the majority concentrated in health sciences. **The Nursing ADN (18), Natural Sciences (18), and Pre-Allied Health (14)** pathways represented the strongest areas of achievement.

Academic excellence was a highlight of the 24–25 HOPE Cohort: **43 students earned honors**, including **28 with Dean's Highest Honors, 10 with Dean's Honors**, and **4 inducted into Phi Theta Kappa**, with **one student also joining Lambda Nu, the national honor society for Radiologic & Imaging Sciences**. These distinctions highlight the resilience, dedication, and academic success of HOPE students as they pursue their educational and career goals.

HOPE Student Demographics

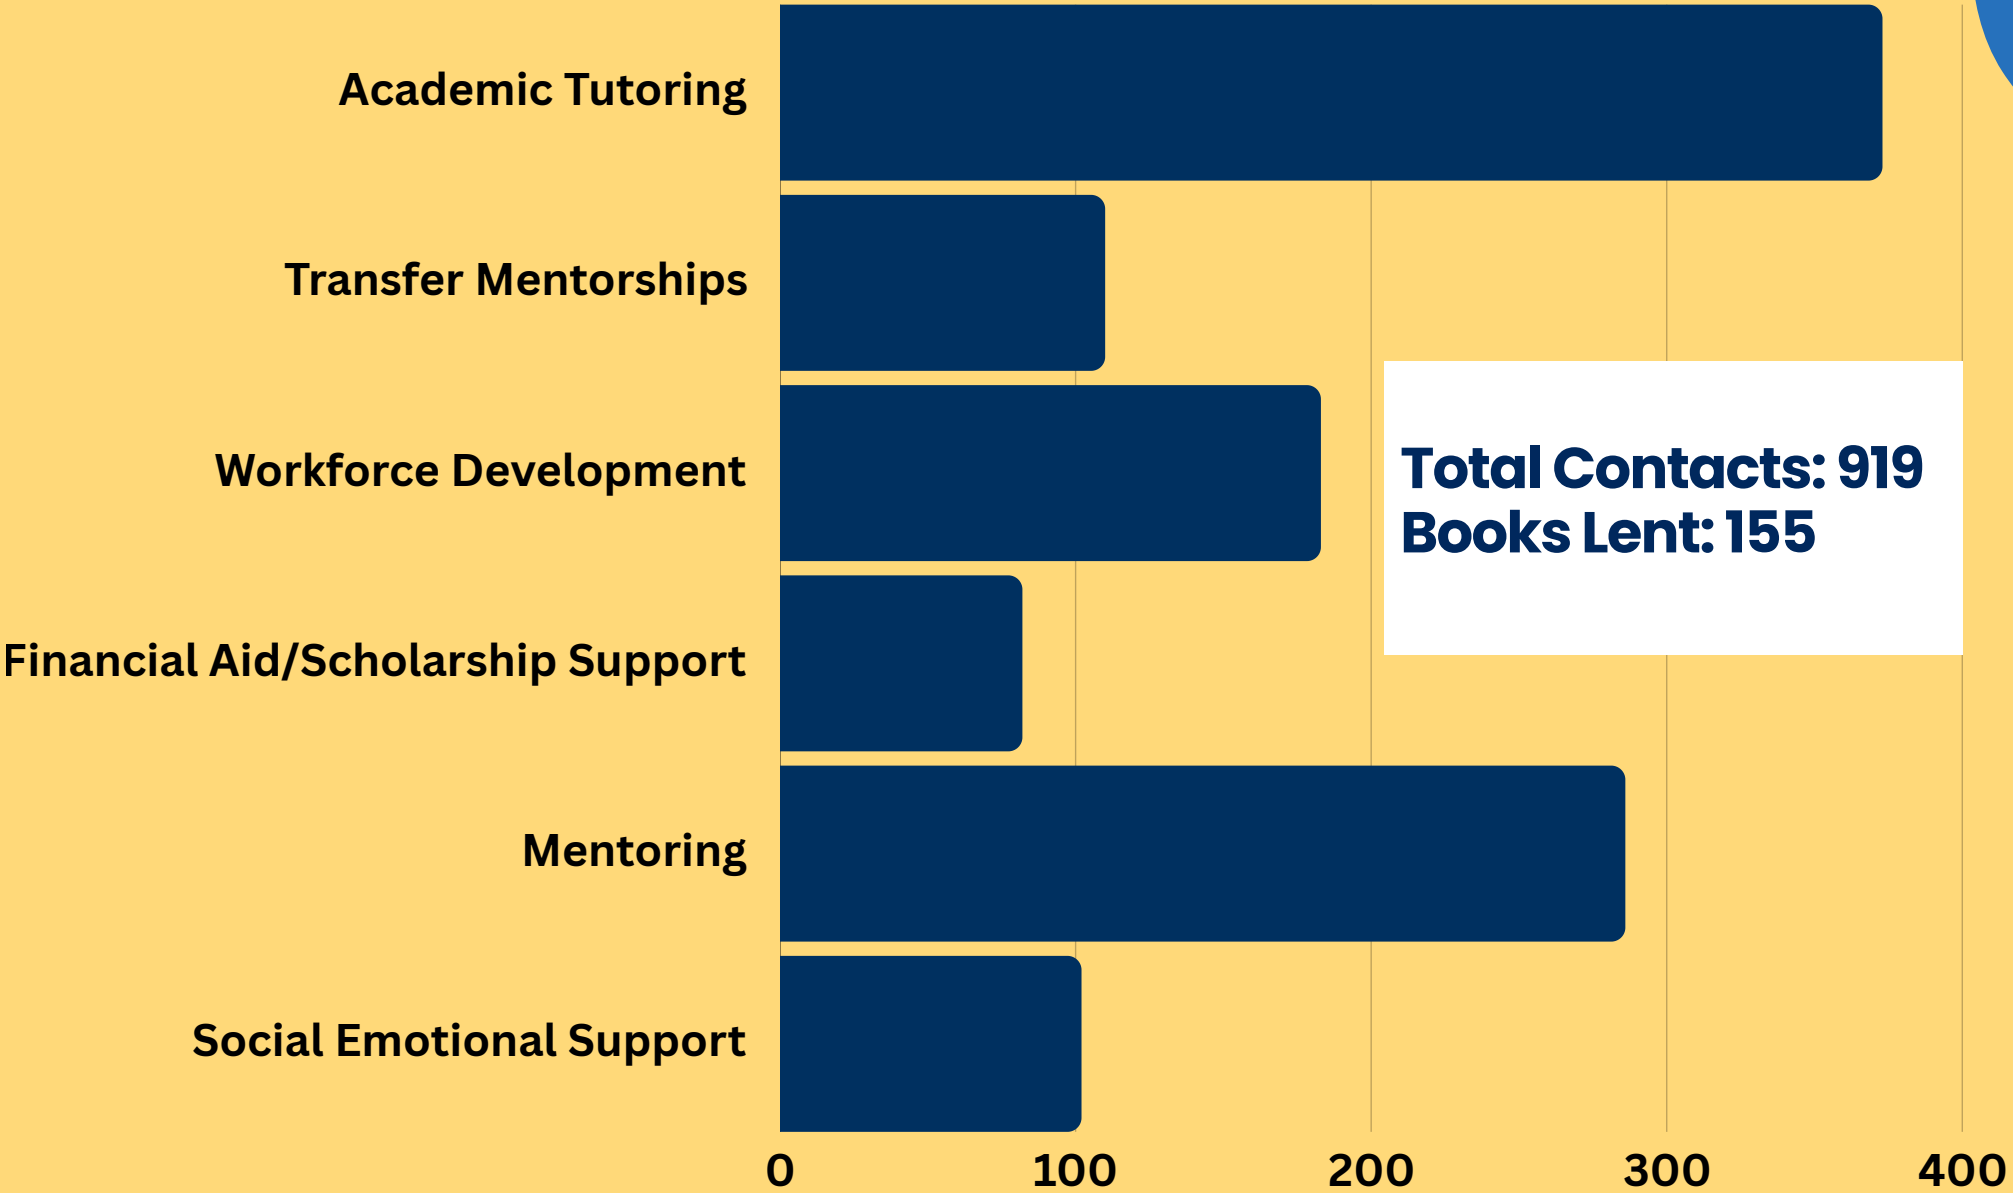

CONTINUED...

HOPE Staff had **over 900 points of contact** with HOPE students in the past 24/25 school year. HOPE students are not only receiving help with academics through our **tutoring services** but they are also **building mentoring relationships, planning for their careers, and securing financial and emotional stability.**

The lending of **155 textbooks** from our HOPE Lending Library further helps to reduce financial barriers, ensuring that students can fully participate in their rigorous courses.

Overall, this comprehensive support system helps students **prepare, persist, transfer, graduate, and thrive at SRJC.**

24/25 HOPE Workshops & Events

Summer 24 CNA Graduation

HOPE attended the SRJC Certified Nurses Assistant Program graduation.

F24 H.A.M. Orientation

HOPE, Avanzando, and MESA hosted a large onboarding orientation. HOPE welcomed 50 new students into our program.

F24 Welcome Week

Free student supplies & food was offered to our students.

F24 Daisy Cardenas' Going Away

A going away event for our previous HOPE program coordinator.

F24 Healthcare Foundation Visits

The Healthcare Foundation awarded HOPE \$20K in scholarship for our students

F24 Scholarship Wokrshop

In collaboration with MESA and Avanzando, we held a scholarship workshop.

F24 CPR Workshop

In collaboration with MESA and Avanzando, we funded CPR training for our students.

F24 NARCAN Workshop

In collaboration with MESA and Avanzando, Micah's Hugs offered NARCAN training to our students.

F24 TEAS Workshop Series

In collaboration with Avanzando, we held 4 TEAS workshops to support students preparing to apply for nursing schools.

F24 Nursing Application Workshop

In collaboration with Avanzando & EOPS, we held a workshop to support students with applications.

24/25 HOPE Workshops & Events

Continued...

F24 COLEGAS Conference

HOPE Staff was able to be present at the COLEGAS Conference to network & learn from other Latinx educators.

F24 Internship Workshop

In collaboration with MESA and Avanzando, we gave our students information on how to apply to internship opportunities.

F24 SRCH Dental Opening

HOPE was invited to attend SRCH's Dental Opening event.

F24 Dia de los muertos

In collaboration with MESA & Avanzando we displayed an altar in our center and welcomed students to participate in remembering their loved ones.

F24 Mental Health & Identity on Test Prep

In collaboration with MESA, Avanzando, & Student Health Services, we had a therapist lead a workshop on mental health.

F24 H.A.M.sgiving

In collaboration with MESA and Avanzando, we hosted a "H.A.M.sgiving" in community with our students.

F24 Anxiety Workshop

In collaboration with Avanzando, MESA, & Student Health Services, we hosted a workshop on Anxiety.

F24 Fuel for Finals

In collaboration with Avanzando & MESA, we hosted a week full of food & activities to support our students during finals week.

F24 Winter H.A.M. Celebration

In collaboration with MESA & Avanzando, we celebrated the end of the semester in community with our HOPE students & funders.

S25 Nursing Student Meet-Up

We hosted a community event before the semester started to welcome the incoming new HOPE nursing students.

24/25 HOPE Workshops & Events

Continued...

S25 Nursing Application Workshop

In collaboration with Avanzando & EOPS, we held a workshop to support students with applications.

S25 HOPE Sutter Fellowship Launch

With Sutter's support, we launched our very first Fellowship program so students gain experience in the healthcare world. Students were placed in community clinics

S25 AHEC Scholarship Workshop

In collaboration Aliados Health, we held a workshop to inform students on scholarship an internship opportunities.

S25 LinkedIn Workshop

In collaboration with MESA, Avanzando, EOPS, & 10KD, we hosted a LinkedIn workshop & offered students professional headshots & a LinkedIn Premium Account.

S25 Healthcare is Love

HOPE was sponsored by the SRJC Foundation to attend the Healthcare Foundation's Drag Brunch Fundraiser.

S25 SRCH Fieldtrip

SRCH Vista Campus hosted a couple of HOPE students for a tour of their facility.

S25 Active Study Workshop

In collaboration with MESA & Avanzando, we held a workshop to support healthy study habits for STEM & Health Sciences students.

S25 NARCAN Workshop

In collaboration with MESA and Avanzando, Micah's Hugs offered NARCAN training to our students.

S25 Parent's Day Event

In collaboration with Avanzando, MESA, EOPS, CARE, & CalWorks, we celebrated our student parents.

S25 Burnout Workshop

In collaboration with MESA and Avanzando, we hosted a workshop to support students when they experience burnout.

24/25 HOPE Workshops & Events

Continued...

S25 Burnout Workshop

In collaboration with MESA and Avanzando, we hosted a workshop to support students when they experience burnout.

S25 Mural Workshop

In collaboration with MESA & Avanzando, we received a grant to work on murals to place in our center.

S25 Mental Health Panel

In collaboration with Avanzando & Student Health Peers, we hosted a panel of mental health professionals to talk to our students interested in Psychology.

S25 Speed Mentor Night

In collaboration with Avanzando, we hosted our annual Speed Mentor Night with healthcare professionals in the community.

S25 H.A.M. Sashing Ceremony

In collaboration with Avanzando & MESA, we hosted our annual Sashing Ceremony to celebrate our graduating students.

Summer 25 Rad Tech Graduation

HOPE attended the 2025 Rad Tech Graduation.

HOPE Pre-NURSE Pathway Strong Work Force Grant

**PRE-NURSE**
Pathway
SANTA ROSA JUNIOR COLLEGE
In Partnership with HOPE & AVANZANDO

**Pre-Nursing Major
Support Program**

The Pre-NURSE Pathway is a new partnership to support SRJC's pre-nursing students, especially those who are underrepresented and first-generation. Our goal is to provide necessary resources to students to support the successful completion of nursing (ADN) pre-requisites, the TEAS exam, and getting through the nursing program application process.

Program Benefits:

- ✔ Textbook Lending Library for ADN prerequisite courses (ANAT 1, MICRO 5 & 60, PHYZ 1, etc.)
- ✔ Workshops (TEAS exam, Nursing Program Application)
- ✔ 1-on-1 Program Support
- ✔ Mentoring Opportunities & more!

The Sonoma County Junior College District does not discriminate on the basis of race, religious creed, color, national origin, ancestry, ethnic group identification, physical disability, mental disability, medical condition, genetic condition, marital status, sex, gender, gender identity, gender expression, genetic information or sexual orientation in any of its policies, procedures or practices, nor does the District discriminate against any employees or applicants for employment on the basis of their age. This nondiscrimination policy covers admission, access, and treatment in District programs and activities—including but not limited to academic admissions, financial aid, educational services and athletics and application for District employment.

SRJC HOPE has long been recognized for its excellence in preparing students for careers in health sciences, with nursing being one of the most in-demand fields.

In **Fall 2024, 2,900 SRJC students (12.7% of the total student body)** declared a health sciences major, with over half **(1,513 students) pursuing pre-nursing.**

By the 2024–25 academic year, **2,073 students were enrolled in pre-nursing—a dramatic increase of 908 students since 2021–2022.**

Despite this growth, **persistence & equity gaps remain a challenge.** For example, only **44.5%** of pre-nursing students persisted from Fall 2023 to Fall 2024, with **persistence rates even lower among African American (37.3%) and Latinx (42.9%) students.** Furthermore, while **72% of pre-nursing students identify as non-white, just 53% of admitted nursing students reflect this diversity,** underscoring the urgent need for a more equitable pipeline into the ADN program.

To address these gaps, HOPE is launching the **HOPE Pre-Networking, Unity, and Resources for Successful Entry (Pre-NURSE) Pathway through Strong Workforce funding**. This initiative, led by the HOPE & Avanzando Programs, will establish a comprehensive pre-nursing track designed to serve at least 240 students annually with culturally responsive, whole-student support services.

Key components of the HOPE NURSE Pathway include:

- **Academic Preparation:** TEAS and application workshops, embedded tutoring, and orientation sessions.
- **Retention & Support:** Case management, peer mentorship, wellness activities, cultural events, and a lending library.
- **Workforce Engagement:** Hospital tours, paid mentorships, and networking events such as Speed Mentor Night and the new Engage Conference.
- **Equity & Belonging:** Programming grounded in cultural wealth frameworks, bilingual staff support, and community partnerships.

S26 Caminos en Salud Conference

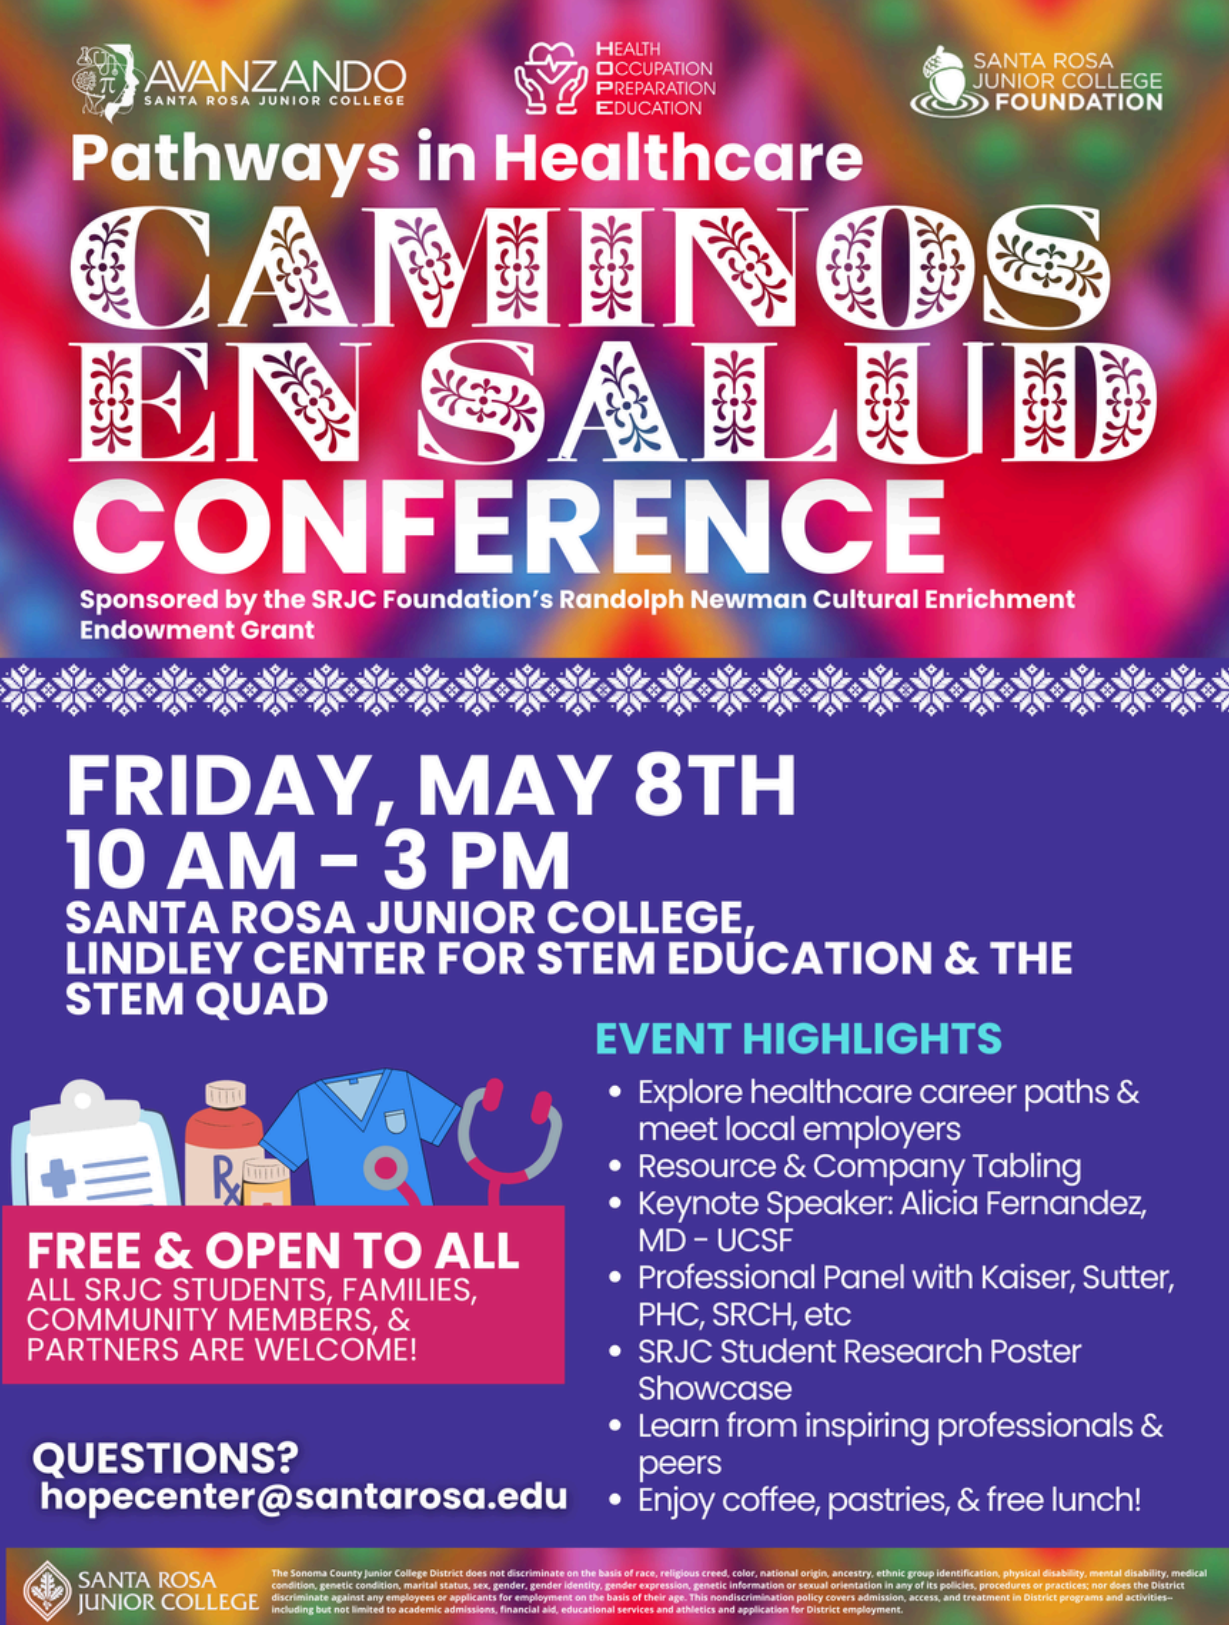

Funded by the SRJC Randolph Newman Cultural Enrichment Endowment (RNCEE) Grant Project

The HOPE and HSI – Avanzando programs will co-host a new signature event: **Health Sciences Conference**. Building upon the success of the popular “**Speed Mentor Night**,” this expanded event will further **connect students to healthcare professionals, employers, and community leaders** through programming designed to **bridge the gap from classroom to career**.

The four-hour conference will feature:

- **Professional Networking:** Tabling with local healthcare organizations, nonprofits, and SRJC departments, paired with live music to create an inviting environment.
- **Culturally Responsive Programming:** A land acknowledgement, bilingual presentations, student speakers, and panels addressing systemic barriers in education and healthcare.
- **Career Development:** Job search panels, mentorship opportunities, and sessions highlighting family and community support in student success.
- **Celebration & Community:** Music, food, and a social hour designed to make networking accessible while affirming culture and resilience.

More information to come...

The poster for the Caminos en Salud Conference features a vibrant, multi-colored background with a bokeh effect. At the top, logos for Avanzando Santa Rosa Junior College, Health Occupation Preparation Education, and the Santa Rosa Junior College Foundation are displayed. The title 'Caminos en Salud Conference' is written in large, stylized letters with a floral pattern. Below the title, it states 'Sponsored by the SRJC Foundation's Randolph Newman Cultural Enrichment Endowment Grant'. The event details are listed in white text on a dark blue background: 'FRIDAY, MAY 8TH 10 AM - 3 PM' at 'SANTA ROSA JUNIOR COLLEGE, LINDLEY CENTER FOR STEM EDUCATION & THE STEM QUAD'. A section titled 'EVENT HIGHLIGHTS' lists activities like exploring healthcare career paths, resource tabling, a keynote by Alicia Fernandez, a professional panel, a research poster showcase, learning from professionals, and enjoying coffee and lunch. A pink box with white text says 'FREE & OPEN TO ALL' and lists 'ALL SRJC STUDENTS, FAMILIES, COMMUNITY MEMBERS, & PARTNERS ARE WELCOME!'. At the bottom, a dark blue box with white text asks 'QUESTIONS?' and provides the email 'hopecenter@santarosa.edu'. The bottom of the poster features the Santa Rosa Junior College logo and a small disclaimer about non-discrimination.

SRJC ADN Program, 2025

HOPE Alumni Spotlight

Our HOPE alumni embody the resilience, dedication, and success that define our program. They are **first-generation leaders and healthcare professionals** who continue to inspire current and incoming HOPE student cohorts by showing what is possible with persistence and a community of support and care.

Their journeys remind us that the impact of HOPE extends far beyond the classroom and into careers, families, and communities.

Keana Parry

HOPE Alumni, SRJC ADN, 2025

UC Davis Medical Center, Trauma Nursing Unit,
New Grad RN

“HOPE supported me tremendously while I attended SRJC. I really appreciated the encouragement and guidance from my case manager, Arley. The workshops were a great way to get involved, and I was lucky enough to even lead one. HOPE funded my **ACLS and PALS courses**, which were so helpful in **building a more competitive resume for nursing jobs**. Inspired by what HOPE had done for me, I even became a **tutor for health sciences** so I could give back.

I always recommend HOPE to anyone who may be feeling a little lost or lacking a sense of community.

Professionally, I hope to make an impact on the world through my career as a registered nurse. While I pursue my **Bachelor of Science in Nursing**, I am learning how to be a leader and a force for positive change. I plan to continue educating myself on issues that affect healthcare, communities, and the patients I serve. **One day, I would love to circle back to school as a professor so I can help guide the next generation of nurses.”**

"I joined HOPE when I first started at SRJC in 2018. Saying the program "held my hand" through the first half of my undergraduate journey is an understatement. My mentors, counselors, tutors, and peers were all foundational to where I am today. **Each and every person I met through HOPE not only believed in me but always encouraged me to strive for more.**

I vividly remember **struggling academically after COVID**, disconnecting from my peers and education. I sat down with HOPE's coordinator at the time, and she told me I needed to "**ponerme las pilas**," which means "put in the effort" or "get motivated. "

As the oldest daughter and the first person in my family to pursue higher education, **my family didn't fully understand how I was struggling or how to help.**

Having someone who had no reason to believe in me take the time to offer advice and encourage me to keep going is one of the reasons I am where I am today.

Mariana Rodriguez
HOPE Alumni, SRJC, 2025
CNA, Sutter Santa Rosa Regional Hospital
SFSU BSN Student

Christopher Eduardo Latorre

HOPE Alumni, SRJC ADN, 2025

Recipient of the 2025 HOPE Award

Registered Nurse at Spring Lake Village

*Recently donated back to the HOPE Program with
Thomas Willows, Fellow HOPE Alumni*

“As a new registered nurse, I am now the **first person in my family to graduate from college**. With the program's support, and the support of the community HOPE builds, I have gained the confidence to **step into leadership roles both in the community and in my workplace**. HOPE provided me with food, a quiet study area, and smiles on days I felt low. **HOPE gave me a safe space to thrive and fail**, to make friends and build connections, and gave me the opportunity to try a new passion – teaching. They allowed me to tutor students with similar goals and values as myself, students that inspired me.

I hope to serve as an example for latino men, showing that we can indeed serve our community as healers and nurses.

I hope to serve as both a role model and a mentor for students who may not see themselves represented in healthcare. Similar to how others have supported me in my journey, I hope to encourage and help guide students in achieving their academic and professional goals. Giving back to those who gave to me is a belief I value deeply, which is why **I partnered with a fellow HOPE student to contribute financially back to HOPE** and plan to continue supporting organizations that invest in student success and building future leaders.”

“HOPE IS the reason that I am in the Kaiser program and where I am today for so many reasons. I’m a **first-generation college graduate** and the **first in my family to enter the medical field**. HOPE allowed me access to doors I didn’t know existed. I didn’t know anything about the Kaiser program, but the HOPE program hosted an event where a Kaiser representative came and talked to our cohort... The **tutoring helped me soar**, not only in my SRJC classes, but in my rad tech classes currently... The study tips & how **Meghan O’Leary taught me to utilize lab time** in the anatomy lab have been extremely beneficial in applying those skills to how I utilize my lab time and study time on the Kaiser campus, and I’m **excelling in all classes**.

The various **workshops that HOPE hosted were a wealth of knowledge** from updating resumes to stress control, and I’ve valued what every workshop had to offer. Having a **case manager who seriously battled for** me and had the time for me, whether that was going through school options, editing a resume, or letting me be sad when I got rejected from another school, was an indescribable resource.”

I don’t know if I would be where I am without the HOPE program behind me.

Ways to Give HOPE Student Need Fund

The **SRJC HOPE Student Need Fund** provides support for first-generation college students with the following:

- **Specialty Scholarships** for unanticipated costs after being accepted into a program (nursing, rad tech, dental hygiene, CNA, etc.) to ensure enrollment.
- **Emergency Funds** for students who are facing financial stressors that pose a risk to meeting their educational goals, such as rent, utilities, food, etc.
- **Workforce Development Workshops** so students can complete training and certificates to strengthen their skillset and make them competitive upon entering the health care workforce.
- **Specialty Supply Scholarship** for students to pay for school supplies.

If you would like more information on how you can further contribute & support our mission in creating leaders in healthcare, reach out to the **SRJC Foundation**:
